

GAME ON! WORKSHOPS

EVERY 1ST & 3RD WEDNESDAY, 4-6 P.M.

It's time to get your game on! Whether you love board games, video games, tabletop role playing games, or all of the above, Pop Culture Classroom has got you covered. In these workshops, you will have the opportunity to play and analyze everything from indie video games to Dungeons and Dragons, learn about the unique history behind these games, and even get a jump on creating an original game of your own. We are here to show that games aren't JUST fun. They also help develop critical and creative literacy skills!

February 6
